Subject: Portland Harbor

Jim and Cami: Later today you will receive a letter from the Port of Portland announcing our decision to not dispute the FS, explaining our reasoning, and articulating what we believe to be the productive path forward.

As you know, the Port strongly believes in a cleanup that protects Portlanders and the environment and that is both cost effective and focused on meaningful risk reduction.

We will be also releasing a media statement and I will provide you both with a copy.

Please feel free to contact me if you have any questions.

Jessica
